Professional Summery

Experienced Software Development Engineer specializing in Flutter-based Android and iOS applications. At Decimal Point Analytics, I deliver high-quality solutions through intuitive UI design, efficient back-end systems, and rigorous testing. Skilled in process improvement and collaboration, I excel in achieving project goals in cross-functional teams.

Skills

- Technical Skills: C++, Dart, Python, Flutter, React JS, GIT, React Native, Firebase, Java, Kotlin, REST API, SQL, UI/UX
- State Management: Riverpod, GetX, Provider
- Professional Skills: Data Structures, Problem-Solving, Software Engineering
- Soft Skills: Quick Learner, Time Management, Project Management, Communication, Leadership
- Personal Skills: Adaptability, Attention to Detail, Self-Motivation

Professional Experience

Decimal Point Analytics

Mar 2024 - Present

Software Development Engineer

- Develop and maintain high-quality Android and iOS applications using Flutter, ensuring optimal performance and an enhancing user experience.
- Design user interfaces and optimize backend systems, utilized Riverpod for efficient state management and ensuring stability through comprehensive testing.
- Collaborate with clients to understand requirements, deliver tailored solutions, and work with the team to integrate new features and improvements.
- Utilize version control systems to manage codebase efficiently and stay updated with industry trends to apply best practices in app development.

Projects

Quotestream Mobile [PlayStore](#)

Mar 2024 - Present

- Designed and developed a responsive and feature-rich frontend for Quotestream Mobile using Flutter, ensuring smooth functionality across Android and iOS.
- Leveraged GetX and Riverpod for efficient state management, enabling a seamless and reactive user experience.
- Integrated RESTful APIs for live stock data, market updates, and portfolio management with dynamic synchronization.
- Built intuitive UI components for watchlists, interactive charts, and financial tools, focusing on usability and performance.

Gully Cricket App [Netlify](#) [GitHub](#)

Nov 2024 - Nov 2024

- Developed a real-time score tracking system using Flutter & Dart, allowing users to update and monitor scores effortlessly.
- Implemented a target setting feature, enabling teams and players to set and track specific score goals.
- Optimized UI/UX with Flutter animations and custom widgets to ensure a seamless and lag-free experience.
- Integrated GetX state management for efficient data handling, ensuring smooth and reactive updates.

Education

BE In Computer Engineering

2020 - 2023

Sandip Institute of Technology and Research Centre, SPPU University, Nashik

Diploma in computer Engineering

2017 - 2020

Government Polytechnic, Dhule

Certification

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional [Certificate](#)
- Certified as Problem Solver on Hacker Rank. [Certificate](#)

Achievements

- 3 Star Coder on CodeChef with highest rating 1771
- Secured 1st position in NashLon hackathon organized by IEEE
