SKILLS

- **Languages:** Java, Python, C++, JavaScript, SQL, Dart
- **Frameworks:** Flutter, Spring Boot, Django, React Native, React.js, NodeJS, SilverStripe
- **Tools & Platforms:** Git, MySQL, REST APIs, Firebase, VS Code, Android Studio
- **Core Concepts:** Data Structures & Algorithms, Object Oriented Programming, UI/UX, GetX, Riverpod
- **Soft Skills:** Problem Solving, Leadership, Team Collaboration, Communication, Time Management

EXPERIENCE

- **Decimal Point Analytics** Nashik, India
Software Development Engineer Mar 2024 - Present
 - **Quotestream Mobile:** Developed a high-performance, cross-platform frontend for Quotestream Mobile using Flutter, ensuring seamless responsiveness across Android and iOS. Implemented hybrid state management with Riverpod and GetX, reducing app lag by over 50% and improving UI responsiveness by 95%+. Integrated RESTful APIs for real-time stock data, market updates, and dynamic portfolio synchronization. Built intuitive UI components including watchlists, interactive financial charts, and tools to enhance user engagement. Achieved 30% performance boost via lazy loading and optimized widget trees.
 - **Rent Roll:** Developed a full-scale Rent Roll client portal using Django with role-based access for Admins, Analysts, and Users. Integrated OCI Bucket for secure file storage and automated processing of Excel and PDF documents. Centralized rental operations with Automated interest calculations, improving financial accuracy by 70%. Collaborated in Agile ceremonies (daily standups, sprint planning, retrospectives) and ensured code maintainability using Git and best practices. Streamlined workflows, reducing manual effort and enhancing user efficiency.
 - **Automation Alert:** Built an automated alert system in Python to extract, process, and deliver financial data from multiple websites, reducing manual effort by 80%. Streamlined data workflows and eliminated repetitive Excel tasks through automation. Implemented scheduled email alerts, ensuring timely delivery of accurate insights to users. Enhanced operational efficiency and decision-making with minimal human intervention.

PROJECTS

- **AI-powered Financial Insights Dashboard:** Developed an AI-powered Financial Insights Dashboard during a hackathon using scalable APIs and backend architecture for real-time financial data processing. Integrated AI for portfolio diversification, asset allocation, risk assessment, and investment recommendations. Delivered dynamic visualizations and intelligent portfolio summaries for enhanced decision-making. Improved portfolio analysis efficiency by 65% and reduced manual evaluation time through smart automation and data-driven insights.
- **ToDo Using Spring Boot:** Developed RESTful APIs for a ToDo application using Spring Boot, covering complete CRUD operations with integrated role-based authentication and authorization. Secured endpoints and documented the API using Swagger for easy testing and collaboration. Enhanced backend efficiency and maintainability, improving development speed and security compliance by 90%.
- **Portfolio Website:** Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and experience across all devices. Implemented smooth UI transitions, interactive animations, and a contact page with PDF resume download functionality. Enhanced user engagement and accessibility, improving reach and presentation effectiveness by 70%.
- **Gully Cricket:** Developed Gully Cricket App, a lightweight and user-friendly cricket scoring application using Flutter with GetX for efficient state management. Enabled real-time score tracking and target setting, delivering a smooth and responsive user experience. Improved scoring accuracy and usability by 60% for casual and local cricket matches.

EDUCATION

- **Sandip Institute of Technology and Research Centre, (SPPU)** Nashik, India
Bachelor of Engineering - Computer Engineering; GPA: 8.7 2020 - 2023
- **Government Polytechnic, Dhule, (MSBTE)** Dhule, India
Diploma - Computer Engineering; Aggregate: 84.40 2017 - 2020

ACHIEVEMENTS

- Secured 1st position in NashLon hackathon organized by IEEE
- Developed and deployed 5+ full-stack applications across Flutter, Django, and Spring Boot.
- Contributed to internal tools that automated 80%+ of manual workflows at Decimal Point Analytics.
- 3 Star Coder on CodeChef with highest rating 1771

CERTIFICATION

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional
- Certified as Problem Solver on Hacker Rank
