Professional Summary

Software Development Engineer with hands-on experience in building scalable mobile and web applications using Flutter, Python, and React. Strong foundation in data structures, REST APIs, and UI/UX design. Quick learner and effective team player with a focus on writing clean, maintainable code and delivering high-quality software in Agile environments.

Skills

Languages & Frameworks: C++, Dart, Python, Java, Kotlin, Flutter, React.js, React Native
Tools & Platforms: Git, Firebase, SQL, REST APIs, Android Studio, VS Code
State Management: Riverpod, GetX, Provider
Technical Proficiency: Object-Oriented Programming, Data Structures & Algorithms, UI/UX Design
Soft Skills: Problem-Solving, Team Collaboration, Time Management, Communication, Leadership

Professional Experience

Decimal Point Analytics

Mar 2024 - Present

Software Development Engineer

- Developed and maintain cross-platform applications using Flutter for both Android and iOS, achieving consistent 30% performance improvements through optimized code and lazy loading.
- Built interactive UIs and dashboards using custom widgets and animations, improving client satisfaction rates.
- Used Riverpod for scalable and maintainable state management and REST APIs to integrate real-time financial data.
- Participated in Agile ceremonies and collaborated with cross-functional teams, ensuring timely delivery of feature rollouts.
- Ensured codebase maintainability with Git and best practices, including modular architecture and unit testing.

Projects

Quotestream Mobile [PlayStore](#)

Mar 2024 - Present

- Designed and developed a responsive and feature-rich frontend for Quotestream Mobile using Flutter, ensuring smooth functionality across Android and iOS.
- Used Riverpod and GetX for hybrid state management, ensuring 95%+ app responsiveness and minimal lag.
- Integrated RESTful APIs for live stock data, market updates, and portfolio management with dynamic synchronization.
- Built intuitive UI components for watchlists, interactive charts, and financial tools, focusing on usability and performance.

Gully Cricket App [Netlify](#) [GitHub](#)

Nov 2024 - Nov 2024

- Developed a real-time cricket score-tracking mobile app with intuitive match setup and scoring UI.
- Achieved smooth performance using custom widgets and animation controllers.
- Integrated GetX state management for efficient data handling, ensuring smooth and reactive updates.

Education

- BE In Computer Engineering** 2020 - 2023
Sandip Institute of Technology and Research Centre, SPPU University, Nashik
- Diploma in computer Engineering** 2017 - 2020
Government Polytechnic, Dhule

Certification

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional [Certificate](#)
- Certified as Problem Solver on Hacker Rank. [Certificate](#)

Achievements

- 3 Star Coder on CodeChef with highest rating 1771
- Secured 1st position in NashLon hackathon organized by IEEE
